

ALLAN L. BERNSTEIN, MD

NEUROLOGY, SANTA ROSA

2006 Morris F. Collen, MD RESEARCH AWARD

Bridging the gap between scientific investigation and clinical practice, Allan Bernstein, MD, conducts clinical research to improve care in neurologic diseases.

Over the past three decades, his research has spanned a wide range of topics, including nutrition, headache, dementia, movement disorders, stroke and pain.

He participated in clinical trials for new treatments for secondary stroke prevention, migraine, Alzheimer's disease and epilepsy.

He was a consultant at the VA Hospital in Martinez, a professor of clinical neurology at UC Davis for 26 years, and the President of the Medical Staff at Santa Rosa for 12 years.

In addition, he pioneered the Headache Clinic and the Memory Disorder Program at Santa Rosa. His current projects include evaluating novel treatments for migraine and stroke.
