

JACK SCHUBERTH, DPM

PODIATRIC SURGERY, SAN FRANCISCO

2008 Teaching Awards TEACHING AND GME

Residents from around the country are drawn to the Kaiser Permanente San Francisco Bay Area Foot & Ankle Residency Program largely because of one man, Jack Schuberth, DPM.

Dr. Schuberth's meticulous attention to detail in the operating room sets an example for all who have the privilege to work with this world-renowned surgeon. He demands excellence from his trainees and regularly expresses his appreciation for their work. He is legendary for being available to answer his residents' questions at all times: whether he is lecturing in another part of the country, on vacation or sleeping at 3:00 a.m.

To quote one of his residents: "He has given me the excitement and passion to do what I will be doing for the rest of my career."
